DETAILED ACTION

Allowable Subject Matter

Claims 15-31 are allowed.

The following is an examiner's statement of reasons for allowance:

As for claims 15, 18, and 27, the prior art does not teach or render obvious the claimed combination, in particular a tape like printing and/or feeding device where an ejection roller is located outside a cutting mechanism for ejection a tape like object cut off by the cutting mechanism through an outlet by revolving. The ejection roller is operated independently from the cutting mechanism, where one is operated separately from another by a controller; and where either the revolving speed, revolving time, or timing of the ejection roller is controlled by the controller depending on a sensor that determines at least one of a type of the tape like object and a thickness of the tape like object. Hence, the ejection roller is controlled based of the type or thickness of tape like object determined by the sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
